

## 2022 Greenhouse Gas Emissions Report

Kalman & Company measured and established a baseline of our greenhouse gas emissions for Calendar Year 2022 for all facilities leased and controlled by the company.

Kalman's GHG emissions report provides measurement of our Scope 1 and Scope 2 emissions for CY 2022. Kalman attests that the Scope 1 and 2 GHG emissions were calculated in accordance with the GHG Protocol Corporate Accounting and Reporting Standard.

In calendar year 2022, Kalman's Scope 1 and 2 emissions measured approximately 0.679 metric tons CO<sub>2</sub>e. The entirety of Kalman's emissions are from the electricity used in the facilities we lease, which is commercial office space.
