

2023 Greenhouse Gas Emissions Report

Kalman & Company measured and established a baseline of our greenhouse gas emissions for Calendar Year 2023 for all facilities leased and controlled by the company.

Kalman's GHG emissions report provides measurement of our Scope 1 and Scope 2 emissions for CY 2023. Kalman attests that the Scope 1 and 2 GHG emissions were calculated in accordance with the GHG Protocol Corporate Accounting and Reporting Standard.

In calendar year 2023, Kalman's Scope 1 and 2 emissions measured approximately 0.679 metric tons CO₂e. The entirety of Kalman's emissions are from the electricity used in the facilities we lease, which is commercial office space.
